Yokota, Y.

Full-scale model test and numerical analysis of reinforced soil retaining wall

Stability assessment of geogrid reinforced soil wall by using optical fiber sensor

Stability analysis of a new type of reinforced earth slope

Full-scale tests on a new type of debris flow trapping fence

Zhang, F.

Bearing capacity of reinforced foundation subjected to pull-out loading: 3D model tests and numerical simulation

Numerical simulation on bearing capacity of soilbag-reinforced ground considering finite deformation
